

ANOTHER FLOOD HITS MIDDLE WEST

Fifth Flood Of the Year Hits Oklahoma Rivers Rise Rapidly

Record Crest Is Expected as Streams Swell—Large Areas Inundated—Life Is Lost in Texas—Number of Bridges, One a Half Million Dollar Structure, Are Washed Out.

(By The Associated Press.) OKLAHOMA CITY, Oct. 15.—Oklahoma City's fifth flood of the year already has inundated virtually the same territory covered last June and the swift moving North Canadian river is rushing onward to an inevitable record flood crest. By tomorrow the river will have added an additional five feet to its present stage of 14 feet it is predicted. The stream now is an irresistible force from one half mile to seven miles wide.

Ten miles west of the capital sixty men using 15 teams have been sandbagging the embankments of the waterwork dam since Saturday. More men will be sent there today to wall up the embankments at either end of the dam and to reinforce a by-pass into the huge lake.

The lake is expected to hold nine feet more water, a major part of the Tuesday flood crest, according to E. C. Bretz, water works superintendent.

(By The Associated Press.) WICHITA, Kan., Oct. 15.—One man is missing and approximately 200 feet of the Wichita Valley railroad bridge, recently completed has been washed out as a result of the high waters of the Red River, according to reports received here last night.

(By The Associated Press.) SPRINGFIELD, Mo., Oct. 15.—Virtually all streams in the Ozark region were bankfull yesterday. Several bridges on the St. Louis, San Francisco system in Oklahoma were reported washed out.

(By The Associated Press.) MUSKOGEE, Okla., Oct. 15.—The half million dollar Rock Island bridge over the South Canadian river near Calvin was reported washed out by high water last night.

Find Dictagraph In Miss Stokes' Room

(By The Associated Press.) NEW YORK, Oct. 15.—Charles I. Erbstein, Chicago attorney for Mrs. W. E. D. Stokes, who for the time being is being held in custody, today confirmed reports that a dictagraph had been found in her suite in the Hotel Commodore.

The instrument, he said, had been found by W. C. Dannenberg, a Chicago investigator, who made it his business to inspect the rooms each day. The dictagraph, Erbstein added, had been discovered while he was conversing with Mrs. Stokes' mother.

The lawyer said the instrument was attached to an extra wire put in each room of the hotel for emergency. Pursued, the wire was traced but no connection was found at the outlet.

Erbstein advanced no theory as to who installed the instrument.

FUNERAL OF MRS. MITCHELL

The funeral of Mrs. Nettie A. Mitchell, wife of Henry Mitchell who died three miles from the city early Saturday morning, was held yesterday afternoon at 2 o'clock from an apartment in the city. The body was carried to Happy Home church near Mayfield, N. C., where it had been made ready. Mrs. Mitchell had been in ill health for some years and her death was unexpected. She was 44 years of age and a native of Rockingham county, having lived during recent years near Sandy Creek.

START HUNGER STRIKE

(By The Associated Press.) DUBLIN, Oct. 15.—Speaking at meetings which the release of Republican prisoners was demanded, Michael Conyn said yesterday that the soldier prisoners started a hunger strike determined to be free either alive or dead.

CARDWELL WILL CASE COMES UP TOMORROW

(Special to The Bee.) CHATHAM, Va., Oct. 15.—The contest over the will of Miss Pattle Cardwell who died recently near Danville leaving an estate valued at about \$20,000 will be heard before Judge H. H. Hurl, clerk of the Circuit Court, tomorrow when it comes up for probate. Joe Cardwell, of Stacy, N. C., brother of the deceased is contesting the will. He will be represented by Hon. N. E. Clement and Hon. Joseph Whitehead. Mrs. Lea Wilson, of Danville, a relative of Miss Cardwell, is also a party to the suit and will be represented by A. M. Aiken, of Danville. The defense, it is understood, will be predicated on the alleged fact that last August when Miss Cardwell executed her last will she was not mentally capable of disposing of her property.

In connection with the will contest, it is learned that Miss Cardwell made four wills in five years each time making a different disposition of her property. These wills were drawn up by Judge E. J. Harvey of Danville whom Miss Cardwell consulted as her legal adviser, and who will resist the effort to break the will. In earlier wills relatives are said to have been provided for but in the last she bequeathed her estate—consisting of lands in

ROUND-UP OF LOOTERS IS BEGUN

What's Home Without a Snake?

Edmund Papineau, 18 months, of Toledo, O., has no use for dolls and rubber toys. His most precious pet is the six-foot Mexican bull snake shown in the picture, which Edmund's papa, who's a "yarb" doctor, used in his medicine shows. The little leather horse at the left has been discarded for an intimate embrace with the reptile.

TOWN TOPICS

At least five Danville doctors expect to attend the fifty-fourth annual convention of the Medical Society of Virginia which begins tomorrow at Roanoke and which will continue through Friday. Dr. R. E. Janner is a delegate appointed by the Danville Academy of Medicine. Others going will be Dr. S. Newman, Dr. C. W. Fritchett, Dr. C. C. Giles and Dr. Lee Dr. Newman is on the program this year and will read a paper on "A New Rational System of Dietetics in the Light of European Experience". It is expected that 500 physicians from all parts of the State will be on hand to attend the sessions which will be held in the Hotel Roanoke. The convention will hear technical discussions of problems of major interest in the medical world by physicians widely known both in and out of the State.

The evil term of the Corporation Court will adjourn during the course of today. Only two minor matters remained to be disposed of today. Sixty-four cases in all have been handled many of these being continued. The number of cases carried over until the December term is comparatively small.

Sheriff J. H. Gunn and Deputy Sheriff E. L. Gunn yesterday morning raided a six gallon still at a point not far from Pelham. The room-shine outfit was prepared for a "run" but the officers were at the point at the time. The officers visited the nearby house occupied by Obie Stokes, a negro, who has been arrested, charged with operating the still. Deputy Sheriff Gunn quickly covered him and made him throw up his hands. He found that Stokes had a .38 calibre revolver on his person. He is in Yanceyville jail.

Judge West of the Court of Appeals has granted a writ of error in the case of Junius Akers, a negro convicted in the Corporation Court here on a charge of violating the Mapp act for the second time. He was sentenced to serve nine months. The appeal was noted on the ground that the first offense was not such that a second charge of a breach of the law, this a felony could be substantiated. Akers being convicted in the first instance of drinking in a public place. The question is one which is understood to have been discussed at some length by attorneys and this is the first time the Supreme Court has ruled on this particular application of the Mapp act.

The executive committee of the Community Chest will meet at four o'clock this afternoon at the Chamber of Commerce to discuss matters incidental to the forthcoming annual campaign.

An x-ray examination of Mrs. W. O. Williams at Edmunds Hospital this morning failed to reveal a grave condition and her complete recovery is anticipated as a result. The x-ray plate did not show any telltale shadow which would have indicated the lodgment of a bullet in the body as had been feared and it now seems certain that one bullet ranged through the back and emerged without doing serious harm. The plate of the injured hand revealed a bullet through the knuckle of the first finger. The facial injuries noted are not believed to be of lasting character.

Miss Rita Izard, of Richmond, representing the Virginia Tuber Blossom Association arrived here today to draw up preliminary plans for the annual fair.

Say it with 4-wheel brakes, and save your flowers. Get a Buick.

NINE PERSONS ARE KILLED IN CROSSING CRASH

(By The Associated Press.) FAIRLAND, Indiana, Oct. 15.—Nine persons were killed and one injured when an automobile in which they were riding was struck by Cleveland, Cincinnati, Chicago and St. Louis passenger train at a crossing at Brookfield near here yesterday. The killed are: J. W. Means, 70, Mrs. J. W. Means, 65, Byron Means, 14, their son; Mrs. Roy Brinton, 30, daughter of Mr. and Mrs. Means; Mrs. Jessie McHulre, 35, sister-in-law of Mr. Means; Mary Brinton, daughter of Mr. Brinton; Mrs. Maida Galtner, 22, sister of Mrs. McGuire; Goldie Galtner, 18, sister of Mrs. McGuire; Majorie Pearl McGuire, 7, daughter of Mrs. McGuire.

All resided at London, Indiana. Roy Brinton, husband of Mrs. Brinton, was seriously injured.

Further Fair Statistics Given

Between 40,000 and 45,000 persons passed through the Fair gates during the recent Fair, according to a preliminary check of paid admissions and passes made by C. L. Booth, who for several years has had charge of the attendance records and gate receipts. It is impossible to say the precise number, because it is likely that people with passes passed in and out of the gates several times in one day. Other statistics bearing on the Fair was given by C. G. Holland, president of the Danville Traction and Power Company today. His figures which are appended and compared with the haulage of the Fair of 1922 show that the street cars handled 15,171 persons less than the year before, the decrease being due to more cars being used and a faster schedule maintained. The schedule, however, was kept unusually well. In only two instances were cars delayed. Before the season started the other five minutes Mr. Holland in noting the statistics today said that traffic officers materially helped in the maintaining of the fast schedule during the run of the Fair. The receipts of the four days of the Fair by the street car company were \$400.97 less than during the year before. Comparative figures show:

	1922	1923
First day	11,679	12,982
Second day	10,370	12,930
Third day	21,496	25,461
Fourth day	12,882	17,176
	66,427	78,558

Fourth Sale Is Effective Today; Receipts Good

The fourth sales on the Danville tobacco market became effective today under a resolution adopted two weeks ago by the Sales Committee of the Danville Tobacco Association. Quadruple sales will be in order now throughout the season until after Christmas by which time the bulk of the crop will have been sold and when there will be no necessity for the additional sale. The fourth sale offers to farmers of the surrounding neighborhood a chance to sell their tobacco quickly and to get home, this being in evidence this morning when Monday sales were heavier than usual. All of the tobacco was cleared up by the end of the day. The receipts of 100,000 pounds of the good grade well defined types being in evidence, the average price being well maintained. Charlie R. Davis, manager of Planters Warehouse, said this morning that the season's crop was surprisingly large when it is remembered that there has been no damp weather since the end of September. He said that the quality also was "good" and that the first "season" will result in better prices being in evidence. Less tobacco is being taken in than at the time the market opened and some farmers have readily admitted that while the price they got was not what they wanted they recognized the inferior quality of the leaf brought in. At Planter Warehouse today some wrappers sold at \$64.

Will Try Four On Kidnapping Charge

(By The Associated Press.) NORFOLK, Va., Oct. 15.—Four men who are alleged to have kidnapped and beaten Linwood F. Howard, 618 Mount Vernon avenue, Portsmouth, last night, will be given a hearing in Portsmouth police court October 25. The defendants are: L. R. Hogard, R. C. Golden, A. B. Carpenter and M. Todd. They were arraigned in police court today, but their attorney, Richard Davis, asked for a continuance to summon additional witnesses. The four were committed to the county jail to obtain bondsmen to give bail of \$5,000 each.

Howard claims there were ten men in the masked and robed party which he was taken to the police station. He accused him of interfering in somebody's "domestic affairs" and threw him from the automobile ten miles from Portsmouth.

He was taken to a room at the home of L. R. Hogard, 423 Elmwood street, with whom he says he had been on good terms.

Mrs. Hogard had previously received a telephone call to "watch her step." It bore the initials "K K K." She tore the mask from the face of one of the men last night and so she recognized one of them. Howard says her husband then interfered, thus aiding the kidnappers.

Howard, when he returned to Portsmouth early this morning, had Hogard arrested.

Ice Company To Buy City Power For Operation of Canal St. Plant

The Danville Ice Company has decided definitely to operate its Southside plant under electric power which will be purchased from the city. The plant, which is situated on the city side of the canal, will be operated at any rate for some time under steam generated in the adjoining plant and no change is anticipated there at the present time.

D. A. Overby, president of the corporation, stated today that the company had definitely decided to abandon the idea of operating the Southside plant with an oil burning engine and that full equipment, such as motors and generators have already been purchased. Some of this equipment, he said, cannot be delivered within nine weeks and it is expected that it will be delivered before the process of electrification of the Southside ice factory has been completed. By that time, however, it is anticipated that the city will have the plant "cut in" and that the present water power will have been abandoned, sale of water rights to the Danville and Dan River Cotton Mill Corporation, Inc., having been already consummated.

The ice company will use city power at the regular rate provided for under the city ordinance which governs the sale of power to industrial concerns. No contract over a term of years will be entered into at present, it was learned on good authority.

French Charge That Political Move Was Behind German Raids

LATE NEWS

(By The Associated Press.) WASHINGTON, Oct. 15.—President Coolidge will present his views on prohibition to the governors' law enforcement conference to be held here Saturday and in the meantime will have no comment to make on Governor Pinchot's suggestion that the President take into his own hands the task of dry law enforcement.

(By The Associated Press.) BERLIN, Oct. 15.—Two civilians are reported to have been killed and several others injured at Meiningen Saturday night when the Reichwehr was called upon to help the police clear the streets of rioters.

Three persons were injured in a food riot at Frankfurt-Am-Main on Saturday.

(By The Associated Press.) MILAN, Oct. 15.—Three bombs were thrown at the offices of the Corriere Della Sera yesterday. They did little damage. Five men concerned escaped. A bomb was thrown at the offices of the newspaper Avanti, but merely blew up a lot of earth in the courtyard.

(By The Associated Press.) WHITE PLAINS, N. Y., Oct. 15.—Coroner Fitzgerald announced today that he had filed a certificate at Harrison stating that Mrs. Gertrude Gorham Webb, wealthy New York and Philadelphia society woman whose death at the fashionable Westchester-Biltmore Country club about three weeks ago was officially investigated by the coroner's jury, had been killed by a bullet fired from a German plane. The investigation, scheduled for tomorrow, had been called off, the coroner's jury added.

Will Play Today Despite Rainfall

(By The Associated Press.) POLO GROUNDS, NEW YORK, Oct. 15.—Tearful perhaps because at least 50,000 baseball fans could not get into the Yankee Stadium yesterday, with 63,000 others, old man Neptune bent his barnacled old form over the Polo Grounds today and cried copiously.

He may be crying for the owners of the New York Nationals and the New York Yankees, who got most of the coin poured in today. For a time it didn't look as if the owners would have broken backs carrying the money.

The rain which fell in a steady drizzle all morning up until noon showed away the early risers and fellows with \$110 had no trouble getting a good seat in the bleachers at the Polo Grounds. There was a fringe of customers around the upper tier of the double-decked grandstand but only about a half dozen cash patrons in the reserved section at that hour.

And this despite the fact that the world's series of 1923 might end today.

The drizzle was damaging to the size of the crowd but it didn't seriously injure the diamond. When the rain stopped the field was in the field the turf looked soft but playable and after a critical examination had been conducted by a squad of experts on loam, it was decided to play today.

The Yankees and the Polo Grounds were opened three hours before game time but there were only about three hundred persons in line waiting to enter. The rain had ceased and out of the north came a cold damp wind which chilled the spectators and shivered and shook in the cold October day that constantly threatened rain.

The Polo Ground keepers removed the canvas covers from the diamond and the playing field was found to be in fair shape.

LUTHERN SYNOD WILL MEET HERE THURSDAY

Preparations are being made here for the annual conference of the Lutheran Synod of Virginia which will be held at the local church of the Association on Thursday and Friday morning, October 19 and 20. The Rev. J. W. Link, pastor of the local church, said this morning that between twenty-five and thirty delegates will be in attendance and that interesting matters will come up for discussion and action. Each day of the conference will be served by a committee of ladies.

The meeting, the first of its kind to be held here is expected to be one of the most successful held in a long time. The Rev. J. Luther Selzer, pastor of St. Mark's Lutheran church, H. C. Derrick, a member of the church the Rev. J. D. Link, pastor of the Emmanuel Lutheran church, and the Rev. O. F. Blackwelder, pastor of the Lutheran Synod of Virginia, will be the main business of the meeting.

The program committee, of which Mr. Blackwelder and Dr. Smith are members, has filed the three days

Stores in Duesseldorf Remain Closed but Looting Is Not Resumed—Authorities Call for Population to Organize a Self-Protective Body.

(By The Associated Press.) DUESSELDORF, Oct. 15.—The stores here remained closed today but the looting which terrorized the city Saturday was not resumed. Several of the municipal authorities have called upon the population to organize a self-protective body that will be able to help the police in the event of further trouble.

The police today raided a number of houses situated near looted stores and recovered large quantities of merchandise. Sixteen alleged leaders of the looting were arrested by the authorities of occupation. Several of the prisoners will be courtmartialled. The others surrendered to the German authorities. The widespread looting here and elsewhere in the Ruhr during the past three days is declared at French headquarters to have been more of a political maneuver arranged by connivance between the nationalists and the communists, than due to suffering through unemployment. The French officials lay the blame upon Dr. Gruetner, the former district president, who since his expulsion from Duesseldorf has continued to excite the German people by declaring at French headquarters to have been more of a political maneuver arranged by connivance between the nationalists and the communists, than due to suffering through unemployment. The French officials lay the blame upon Dr. Gruetner, the former district president, who since his expulsion from Duesseldorf has continued to excite the German people by declaring at French headquarters to have been more of a political maneuver arranged by connivance between the nationalists and the communists, than due to suffering through unemployment.

In this connection French attach great significance to a recent announcement in the German press that the executive offices for the relief of the unemployed would be transferred from Berlin to Barmen and also to a semi-official agency despatch from Barmen quoting Dr. Gruetner as directly as predicting that within a few days the economic situation in the Ruhr would be such that firearms would be needed to disperse the hungry demonstrators. This according to the expelled official, would lead to a situation so embarrassing to the French that they would have to abandon the Ruhr occupation as a bad job.

It is also reported that the French in mind, the French assert they have good evidence that Dr. Gruetner and his henchmen conspired to create a situation embarrassing not only to the French but also to the German government, at which the nationalists are extremely disgruntled. The French believe that Dr. Gruetner's plans were known to a large section of the population here, and that the French would go far in explaining the apparent good natured disinterestedness of the crowds of onlookers while Saturday's vandalism was in progress.

Janitor Testifies In Stokes Case

(By The Associated Press.) NEW YORK, Oct. 15.—Joseph A. Thornton, negro janitor, in the East 35th street apartment house in which Edgar Wallace, co-respondent in the W. E. D. Stokes divorce case, had a suite, was the first witness called when the trial was resumed today.

Thornton previously had testified that during the summer of 1914 he had seen a well-haired woman resembling Mrs. Stokes enter the Wallace apartment three or four times.

Samuel Untermyer, chief counsel for Mrs. Stokes, asked him what he had seen and if he told him that Mrs. Stokes was in Kentucky throughout the summer of 1914 and gave birth to one of her children in Denver that fall.

He then asked very much like the woman, Thornton replied.

After Mr. Untermyer had put the question several times and Thornton had made the arrest, supreme court Justice McKim asked the witness: "Is that as strong as you want to go?"

SOCIAL ACTIVITIES

D. A. R. Meeting.
Foresters, Henry Chapter, Daughters of the American Revolution, will meet Tuesday, October 16th, at four o'clock at the residence of Mrs. W. T. Hughes, 233 West Main street. The business meeting from 4 to 4:30 o'clock will be followed by a program.

Hunt on White Oak.
One of the first of the season took place on White Oak mountain last Thursday night when Robert Herndon, with his hounds, gave great pleasure to a party of young folks who joined in with great enthusiasm, returning with many scratches and bruises. Misses Virginia Howard, Mary Orgain, Mildred Bouldin, Alice Jones, Ruby Howard, Messrs. Roy Payne, Sam Robertson, Eugene Rice and Mr. Schuster.

Nurses to Meet.
The monthly meeting of the Graduate Nurses Club will be held in the Y. W. C. A. Tuesday evening, eight o'clock. This is guest night and each member is to bring one or more nurses not members of the club.

Jones-Fulton.
Mr. and Mrs. W. W. Fulton have announced the marriage of their daughter, Miss August 24th, 1923. The above announcement comes as a surprise to the many friends of this popular young couple who had kept their marriage a secret until a few days ago.

Miss Fulton is the only daughter of Mr. and Mrs. W. W. Fulton, of 152 West Main street, and one of the most attractive and popular of the younger society set. She is a graduate of Randolph-Macon Institute, and was attending Washington, D. C. Mr. Jones is the son of Mr. and Mrs. T. Ashby Jones, of Danville, a graduate of Danville Military Institute and attending Washington and Lee University. They have decided to leave school and are now spending some time in Washington, New York, Niagara Falls and other points. After a few weeks, Mr. and Mrs. Jones will return to Danville where they will make their home.

Annual Conference to Meet in Richmond.
A number of Danville ministers and their wives and several laymen will attend the Annual Conference of the Methodist Church, South, which meets at Broad Street Methodist Church, in Richmond, this week.

Among the number attending from Danville are Dr. and Mrs. T. A. Smoot, Rev. and Mrs. J. T. Allen, Rev. O. B. Newton, Rev. and Mrs. J. W. Rustin, Rev. Callaway Robertson, Mr. and Mrs. E. G. Moseley, Mr. and Mrs. P. Parham, Mr. and Mrs. Frank Talbot, J. T. Callin, Sr., and H. O. Kerns.

Country Club Tea Committee.
Mrs. Fred Townes, chairman of the committee to serve next Saturday afternoon, October 20th, requests the members of the committee to meet Tuesday morning, October 16th, at 11 o'clock, at her residence, 189 Virginia avenue.

Committee: Mesdames Julian Robinson, sub-chairman, M. K. Harris, O. P. Estes, E. T. Estes, N. H. Hazelwood.

HARMLESS MEANS OF REDUCING FAT
Many fat people fear ordinary means for reducing their weight. There is an extraordinary method. Extraordinary because while perfectly harmless to dieting, exercise, or disgusting greases and salves are necessary. Marmola Prescription Tablets are made exactly in accordance with the famous Marmola Prescription. You reduce steadily and easily, with no ill effects. Procure them from your druggist at one dollar for a case of send price direct to the Marmola Company, 411 Woodward Avenue, Detroit, Mich.—adv.

Thousands of Letters
LITERALLY thousands of letters recommending the use of S. S. S.—the great blood purifier and system builder—all telling how S. S. S. restores the state of well being by creating red blood cells are received daily by the manufacturers of S. S. S. What S. S. S. has done for others it will do for you. Is your vitality sapped—your courage gone—your health undermined—your brain misty—the old time fighting spirit missing? Do you want to get back to the days of "once before"—the days when you were young and strong—healthy and buoyant—when your brain was active and your spirit alive with ambition?
S. S. S. is the surest and safest way to restore health, energy and vitality. Since 1876, S. S. S. has been bringing back clear, sparkling eyes—radiant expressions of well-being—building up nerve power—stimulating blood coursing through the system—building red blood cells. Your nerve power is born in the blood cell. Increase your red blood cells and watch your life improve.
S. S. S. makes stronger and healthier bodies—bodies free from impurities—free from rheumatism—free from skin eruptions—eczema, blackheads, pimples and boils. Any leading drug store will supply you and, for economy, get a large size bottle.

S.S.S. Makes You Feel Like Yourself Again

PROMISES ATHLETICS LEADER
PERFECT BODY IN SIX MONTHS

MADAME DENN A ZENDA DENNY

BY MARIAN HALE
(Special to The Bee)
NEW YORK, Oct. 13.—Do you know what is in the cold cream you rub on your face each night, or the powder you keep between you and the public by day? Do you know why some women have such beautiful complexions, while others have such ugly ones? Do you know why some women have such perfect bodies, while others have such ugly ones?
The answer to all these questions is in the hands of Madame Denn a Zenda Denny, beauty specialist, and woman should be equally particular about their complexions.
"I thoroughly believe no woman should use cosmetics she has not had analyzed by a chemist," said she. "There are many harmful ingredients in the market that are all their labels claim for them, and there are others made from materials no woman would touch if she saw them in the raw state."
Beware Impostors.
"The desire for beauty is so universal among women, and our vanity is so easily worked upon, it is no wonder that unscrupulous people try to impose upon us and in doing so, work incalculable harm to the very thing we are trying to keep."
For years, Madame Denny made just her own preparation over her own kitchen stove. Then friends be-

Married Saturday
J. Wade Toler, of Danville, and Miss Anne Gertrude Davis, of Wendenon, were united in marriage Saturday afternoon at 3:30 o'clock by Rev. J. Clyde Holland at his home on North Main street. The bride is the daughter of Mr. and Mrs. J. Davis of Wendenon. The couple were accompanied by J. S. Hardy, W. L. Mills, R. P. Secare and Clarence Toler.

Vaden-Puckett
John R. Vaden and Miss Sue Puckett, both of Danville, were united in marriage by Rev. J. Clyde Holland at his residence on North Main street, the marriage being performed at 5 o'clock. The couple were accompanied by Miss Blanche Dodson, William McLaughlin, Miss Viola Puckett, Bertman Burgess, Miss Eva Tate, Henry Brown, Miss Myrtle Vaden, Jesse Burgess, Miss Janie Vaden, Edw. Puckett, and Thomas Slaughter.

Myers-Holt
The parsonage of the Second Baptist Church on North Ridge street was the scene of a pretty marriage Saturday night at eight o'clock when Miss Rosa Lee Holt became the bride of Herbert Clifton Myers, Rev. H. W. Connelly officiating. The ring ceremony was used. Those attending the wedding were, Mrs. Holt, mother of the bride and her cousin, Miss Mabel Elands and Mr. and Mrs. C. A. Myers, brother and sister of the groom. The bride was attired in a traveling suit of blue.

TYPHOON RIPS DOWN EMERGENCY JAP SHACKS
(By Chicago Tribune Service)
TOKIO, Oct. 13.—A heavy typhoon Tuesday night ripped up and tossed about many of the emergency shacks erected after the earthquake, soaking the shanty stocks of food and clothing and adding to the general misery.

THE AMERICAN RELIEF PERSONNEL
with the exception of three doctors, sailing on the transport Mooka October 14. Japanese emergency relief funds of 36,000,000 yen (\$15,000,000) have been expended and the authorities are now investigating the situation to determine the amount of the next government grant.

THE GENTILITY OF THE AMERICANS
especially in rushing food and other supplies from Manila, Manila and the Philippines to the Japanese people.

THE NIGHT NIGHT TOMORROW
publishes secret evidence in the Tokio Social Party murder cases which indicate that high army officials are involved.

SOME REWARD!
BERLIN, Oct. 13.—For apprehension of the murderer of a ten-year-old girl, Berlin police have offered a reward of 500,000 marks. The police are willing to exchange this is about the value of a cow.

Antis Will Fight
Liquor To Finish

(By The Associated Press.)
WASHINGTON, Oct. 13.—It took more "real citizenship" to outlaw the saloon than it will to halt the lawbreaker, Wayne B. Wheeler, general counsel for the anti-saloon league, declared in an address today at the "citizenship conference" called by the federal council of churches on the question of prohibition enforcement. "The anti-saloon league," Mr. Wheeler said, "will fight harder than ever this year to finish the task so successfully prosecuted for thirty years. With the moral and financial support of the churches back of us, we have demonstrated the most strongly entrenched, politically corrupt and un-American evil that ever cursed a free people could be outlawed."

"We won this fight against 177,790 saloons, 683 breweries and 74 distilleries which were political recruiting stations before national prohibition went into effect, with hundreds of millions of dollars behind them to boycott, browbeat and blackmail men in public life. We have lost our virility and thrown away our courage if we now surrender our Christian ideals to a set of outlawed criminals."

"The churches of the nation," Mr. Wheeler declared, "can most effectively aid in the fight for law enforcement by seeing that one hundred per cent. of the voters among their members are registered and voting at elections."

FANTASY

By JOHN V. A. WEAVER

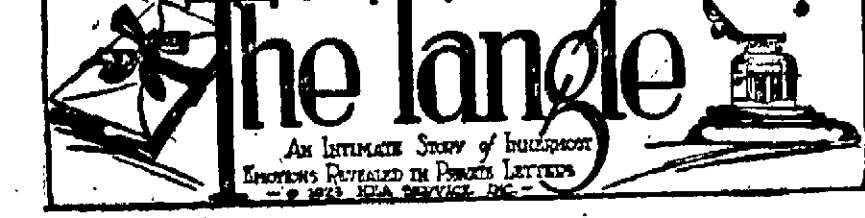

Stars
If they could have a smell like flowers—
White soft, sparkling,
So beautiful they hurt you—
Not proud and grand,
Just little and friendly—
Crowds and crowds of friends—
Night time by the river,
Stars all up above us,
Stars every side of us,
Like the whole Milky Way
Fell down around us—
And the way the blossoms smelled—
Stars—
If they could have a smell like flowers—
Honey-suckle!

RICHES ARE OF THE SPIRIT

My well-filled garner
May be a sign, not of my wealth,
But of my utter poverty.
My big house and garden
That please my hollow pride
Might be, if I saw clearly,
An alms-house and its depressing environs.

—MURIEL STRODE.

JOHANNESBURG, Africa, Oct. 13.
A virgin reef, apparently of great richness, has been discovered at Umsingwane. It was found beneath the alluvial soil of a native mealie patch.

LETTER FROM LESLIE PRESCOTT TO LESLIE PRESCOTT, CONTINUED.
I never will be able to understand, dear little Marquise, what malignant fairy made me tell Mr. Cocoran that Karl had given me the pearls. The moment the words were out I would have given anything if I could have taken them back. But, alas, words once spoken are of the few things in this world that cannot be taken back or changed or made over. They must stand and we must stand by them.

I could hardly confess to Mr. Cocoran that I had told him a lie especially as seemingly I had no excuse for doing it, and having told him the lie I, of course, had to bring many other untruths to bolster it up.

Down in my heart I didn't believe that Mr. Cocoran thought I was telling the truth and quickly my brain tried to form a plan by which I could make him think that a young man, even as rich as Karl, would give me as beautiful a present as the pearls.

"After a little hesitation," I said, "You know Karl Whitney and I have been like brother and sister all our lives. Ever since I was a little girl and admired pearls in a shop window Karl said to me he would see that I had some when I married. I am sure that neither he nor I had an idea what that promise entailed as neither of us knew the value of the milky white jewels. But when I married, as you see, he kept his childish promise."

"Of course, Leslie," said Mr. Cocoran, "I have no idea what pearls of this kind cost, but I imagine they are very expensive. Does your mother know about this?"

"Oh yes," I answered. "Karl has also given Alice a string since she went to England. You don't think I would take them if she hadn't approved, do you?"

Again it was some evil spirit speaking through my lips, for certainly I should never have allowed Mr. Cocoran to think that my dear mother would do such a thing. Mr. Cocoran, however, seemed to think I had approved it was all right. He said no more, but gave me a note to a friend of his who was a jeweler and I got out of his office as soon as possible.

"When I told the man my business and showed him my pearls, it seemed to me he was greatly astonished. 'My dear young lady,' he said after a little examination, 'do you realize what these pearls are worth as you call them, are worth today?' 'I have no idea of their value,' I said, 'but I would like to sell you three or four of them. Mr. Cocoran said that you would deal honestly with me.' 'Of course I will, and as it happens I have a patron who is collecting stones of this size. In fact, he has been collecting them for years.' 'How much will you give me for the three?' 'I cannot afford to give you over three thousand dollars apiece for them.' (Copyright, 1923, NEA Service, Inc.)

TOMORROW: More of the same letter.—An unexpected meeting.

ROBT. SAUNDERS
HELD BY POLICE

(By The Associated Press.)
CHICAGO, Oct. 13.—Robert Saunders, son of a Youngstown, Ohio, clothier, claiming to be the heir to the \$250,000 estate of an uncle in England, was held by the police today on complaint of Mrs. Anna De Vittoria Duffy, who said she and Saunders met and were married in Cleveland last August. She says she learned he had another wife, having married Lillian Lacey, of Tampa, Florida, shortly after being divorced from his first wife, who was Helen Steel, to whom he was married in Youngstown in 1915. Saunders had been living at a hotel under the name of "Duffy," according to the police.

LONDON, Oct. 13.—The American embassy announced yesterday that Ambassador George Harvey, "having obtained the king's pleasure," plans to leave England for home, the end of the present month.

KILLED ON TOP OF A POLE
AS HE TOUCHES LIVE WIRE

ATLANTIC CITY, Oct. 13.—William Cressy, aged 3, of Bayview ave. and Doughty road, Pleasantville, was instantly killed today when he came into contact with a wire carrying 2,300 volts of electricity. Cressy, who was a lineman employed by the Atlantic City Electric Company, was at the top of a pole on the Shore road, opposite the county insane asylum. Instead of wearing rubber gloves, he wore canvas ones and when a foot touched a ground wire he reached up and caught hold of the dead wire and was electrocuted. He is survived by a widow and stepdaughter.

\$25.00 TO \$89.50

The Temple Shop
"Exclusive But Not Expensive"

Good Morning Judge!

Activity on Newton street revived over the week-end and police officers were called three different times to answer "fight" calls. Arrests resulted on each of their trips. On their first call the officers placed under arrest two women of color, one a light yellow and the other a dingy brown. One gave her name as Janie Goings and the other as Janie Crawley. Neither tried to hide the fact that they were engaged in a brick bat battle as result of a quarrel as to which was to enter a man who had paid their place a visit. It is said that their shades of color had something to do with the quarrel, the lighter one contending that the sutor cared for her while the darker one declared that he preferred her. It appears that the Goings negroess received the worst end of the brick battle who she proved an assault and the Crawley woman drew a fine of six dollars and costs while the warrant against the Goings negroess was dismissed.

The other two calls brought Ethel Belle into court for an assault on Mary Logan, for which she was fined six dollars and costs. A warrant against Julius Spraggins for assaulting Mary Logan was dismissed. James Howard was granted a continuance on a warrant charging him with assault on Tish Lanier but drew a fine of \$11 and costs for being drunk. A fine of \$8 and imposed on Minnie Howard for an alleged assault on Tish Lanier. Walter Lanier drew a fine of \$11 and costs for assaulting Tish Lanier. Thus it seems that the Lanier and Logan women received the worst end of the other fights on Newton street.

Charges of assault, reckless driving, no license and no permit against Douglas Nunnally were continued. Buster Hall drew a fine of \$1 and costs for driving a car without a permit while a charge of not having a chauffeur's license was continued.

H. C. Brown fined \$21 and costs for speeding. Rufus Petty drew a similar fine for also exceeding the speed limit. Jim Conley was fined \$5 and costs for violating the Sunday selling law. A fine of \$10 and costs was assessed Algie Banks, colored, for not having proper license. As the negro passed out he was heard to utter a remark which resulted in him being brought back and placed under a recognized bond for his good behavior.

Henry White, colored, was fined \$10 and costs for not having proper lights on his machine. Sam Jarrett, charged with speeding was not present.

V. M. I. Defeated Roanoke 27 to 6

LEXINGTON, Va., Oct. 13.—In an exciting game in which the ball was in the air more often than in the possession of a runner, the V. M. I. flying squadron downed Roanoke College by the score of twenty-seven to six.

Roanoke completed a forward pass immediately after White of V. M. I. had kicked off, and the Maroon made two unsuccessful attempts in the air just before the game ended. Roanoke completed thirteen out of twenty-six attempts to get in by passes, and V. M. I. was successful in three of its five attempts.

V. M. I.'s first score came early in the first quarter when the Roanoke backs, after recovering two of their own fumbles and their own blocked kick, attempted a pass which was intercepted by Watkins. Watkins fumbled and straight-armed for twenty-five yards and a touchdown. The Cadets counted again in the next quarter as the result of two long passes, White to Watkins, and Caldwell's plunge of twenty yards. In the third quarter V. M. I. showed its best sustained attack, taking the ball down the field on a series of line plunges and end runs. After the Cadets had made their fourth touchdown, a pass from White to Fowler, substitutions were made after each play so that at the end of the game not a first string V. M. I. player was on the field. It was in the last quarter that Roanoke staged an irresistible overhead attack that resulted in its lone touchdown. Barbour and Clements proved to be the mainstays in the Cadet line, and Watkins featured in receiving and blocking passes. Caldwell was V. M. I.'s surest ground gainer. Wyndy White's kicking was above the average, two of his kickoffs traveling over the goal line and one punt sailing sixty yards in the air and another ten on the ground. Logan, Potter, and Davies played aggressively in the line for Roanoke. And Oaker, Caldwell, and Hurt played well in the backfield. Oaker's receiving of passes was excellent.

KING COLLEGE SMOTHERS ELON

(By The Associated Press.) BRISTOL, Va., Tenn., Oct. 13.—The King College Tornado registered its third victory of the season here today when it defeated the heavy Elon eleven 35 to 6.

King scored its first touchdown five minutes after the game started and made three touchdowns in the final five minutes of play. The Tornado concentrated its attack on the Elon line and used four open plays. Total points made by King in its three games this year now total 138. Elon's touchdown against the Tornado today marked the first time this year that the "Kays" goal has been crossed. The brilliant King half back showed remarkable form today both on offensive and defensive plays.

CAMEL'S BONES UNEARTHED

NEW YORK, Oct. 13.—The skull and jaws of a glaucous camel have been discovered by the Albert Thompson expedition in Nebraska. It was announced today by Professor W. O. Matthews, curator of the department of vertebrate paleontology of the American Museum of Natural History, to New York after six months of excavation in the noted Snake Creek fossil quarries of Western Nebraska. He shipped the museum 11 cases of fossils which include the tooth of an ape, the skulls and bones of three-toed horses and specimens of other prehistoric vertebrates, including long extinct camels and deer.

"A very interesting ape tooth, the only one known to the new world, was discovered," said Professor Matthews of a large series of the skull and jaws of extinct animals. The best specimen was the skull and jaw bones of a gigantic camel, much larger than the modern bactrian camel."

IMPRESSIVE VICTORY.

(By The Associated Press.) WASHINGTON, PA., Oct. 13.—Washington and Jefferson scored their most impressive victory of the 1923 campaign today when they defeated Brown University 12 to 7. The Presidents registered 23 first downs against three for Brown, using a crushing line attack, wide end runs and occasional forward passes. Washington and Jefferson scored two touchdowns and Brown one in the third quarter.

COMPANY TENSUN!

As honorary colonel of the Sixth U. S. Infantry, Maxine Brown is entitled to a salute. She received the commission, never before conferred on any member of her sex, as a token of appreciation for her work in behalf of ex-service men and the Citizens Military Training Camps. The late President Harding once referred to her as the prettiest girl who ever visited the White House. Turn out the guard!

Work Says Scheme Of Government Reclamation Is Now Endangered

(By The Associated Press.) WASHINGTON, Oct. 15.—The entire scheme of government reclamation development is endangered by the present situation of the more important projects, Secretary Weeks declared today in opening the initial session of the fact finding committee appointed by him to formulate a new reclamation policy. Radical reforms and improvements must be effected, he said, if the settlers were to be protected from loss and the governments interested safeguarded.

Complaints from various groups vitally interested in development of arid lands began to reach him soon after he assumed office. Secretary Work told the committee, the complaints covering almost every phase of activity.

Seek Capture Of Persons Who Lynched Negro

(By The Associated Press.) RICHMOND, Va., Oct. 15.—Governor E. Lee Trinkle today announced that no stone would be left unturned to bring about the capture of members of a mob that on last Friday night lynched Horace Carter, negro, in King and Queen county.

"However horrible may be the crime attributed to the negro," the governor said, "I will not stand for any such horrible and disgraceful disregard of the law as was enacted in King and Queen county Friday. Those guilty of the lynchings are guilty of murder and when brought to justice should be treated according to the severity of the crime."

ARRANGEMENTS FOR REUNION

(By The Associated Press.) RICHMOND, Va., Oct. 15.—A committee from the Robert E. Lee and Stonewall Jackson camps, sons of Confederate veterans, has completed arrangements for the reunion of the second brigade which is set for November 24 at Richmond, according to an announcement today. Members of every camp are expected to attend the committee estimating the number who will be present at not less than 1300.

A Confederate ball with costumes of the antebellum period will be the fare of convention. The national commander in chief of the Sons and the state commander will attend the reunion.

FLOODS SURROUND ENID

ENID, Okla., Oct. 13.—Railroad communication between Woodward, Oklahoma, and the outside world has been cut off by floods, according to word received here by the Southwestern Bell Telephone Company. No trains have entered Woodward since yesterday afternoon and the telephone lines to the North, South and West are out of commission.

—E. V. Smith leaves tomorrow for South Boston where he will judge the poultry exhibit at the Halifax County Fair.

Sensational Address of Sangwill Is Discussed By Jewish Congress

(By The Associated Press.) NEW YORK, Oct. 15.—A sensational address by Israel Sangwill, author and publicist, who arrived recently from Great Britain, was being discussed by delegates at the American Jewish Congress resumed its sessions today. Speaking in Carnegie Hall last night he declared Europe was a hot bed of strife and asserted the Jews must forego their political hopes of Palestine rather than throw a match into such a powder factory as the globe has become. He declared Palestine has been "politically mismanaged"

by England and that the Balfour declaration which was intended to give the Jews a homeland had degenerated into a scrap of white paper.

American Jews, he said, had a chance to save America from infidelity to her mission of salvation for Europe. He deplored the existence of the Ku Klux Klan, in America, but declared it "has not arrived at full European blood thirstiness."

"Perhaps it is the role of millions of Jews represented here to help America keep American," he said.

RAIN POSTPONES GAME

(By The Associated Press.) KANSAS CITY, Mo., Oct. 15.—Today's game between Baltimore and Kansas City, the fourth of the junior world series, was postponed on account of rain.

who has been visiting Mrs. Fred Hol. derby, has returned home.

BARREL SHORTAGE.

(By The Associated Press.) WINCHESTER, Va., Oct. 15.—Apple growers in the Winchester district are suffering from a barrel shortage due to the large crop this year. As a result, growers say, they are having to pay from \$8 to \$9 cents each. Several factories here are working day and night.

WEATHER FORECAST

Virginia: Fair tonight and Tuesday, cooler in Northeast tonight. North Carolina: Mostly cloudy tonight and Tuesday, probably showers Tuesday in extreme Southwest; little change in temperature.

Methodists Gathering At Richmond For Meeting

(By The Associated Press.) RICHMOND, Va., Oct. 15.—Methodists from all parts of the district gathered by the Virginia conference of the Methodist Episcopal Church of the South today began gathering here for the annual conference which will get under way on Wednesday. Bishop Warren A. Candler will preside.

E. W. HOUSER DIES.

(By The Associated Press.) ST. LOUIS, Mo., Oct. 15.—Edgar W. Houser, 81, pioneer founder and former president of the Houser Elevator Company, died yesterday at a hospital. He retired from business years ago.

Cited 9th Time For Bravery

PARIS, Oct. 15.—Colonel Count Gabriel De Chambrun, whose grandmother was the daughter of Lafayette and who married Clara Longworth, sister of Nicholas Longworth, has just received from Marshal Lyautey his ninth citation for brilliant conduct in the French Moroccan campaign.

The citation, in the September army orders, says that during the hard fighting at Djabel Idian, and on exceptionally difficult ground, he again gave proof of his admirable military qualities, decision, rapid judgment and calm, personal bravery.

The irreconcilable rebel tribes who have occupied the heights of the Atlas Mountains for centuries, who live by pillage and are noted for their courage, love of fighting and fidelity to their chieftains, have been greatly heartened by the recent Spanish defeats in the neighboring region to the north.

Great quantities of arms and ammunition have fallen into their hands and, as they are among the best marksmen in the world, the maintenance of law and order has become an even more difficult task for the French authorities.

Count De Chambrun, who succeeded in occupying one of their chief strongholds, had the political as well as military success of obtaining the official submission of some of the most aggressive tribes of Alt Idazzen. The count was attached to the American Expeditionary Forces in France during the world war and once delivered a course of lectures at the war college in Washington.

Upon the approach of a senate by-election recently Georges Clemenceau was approached by a committee with a view to allowing himself to be nominated for the seat, made vacant by the death of the incumbent.

"My political life is finished forever," said the Tiger with a smile. "All that is left me now is to take my place at the window and wait to see my funeral pass."

The former premier has made every preparation for that event, except for the act of dying. A short time ago he had a tomb made ready for himself beside his father's. Meanwhile he interests himself in local doings. He attended the opening of

POLICE OFFICER COOK HELD UP BY A WOMAN

Police Officer O. T. Cook shortly after midnight had a difficult time placing under arrest three men and a woman in a touring car, which was fleeing from the officer. After a thrilling chase a woman, who gave her name as Mrs. Doris Dickens, held the officer at the point of an automatic pistol but he suddenly wrenched it from her hands and placed the entire party under arrest. The woman was arraigned for violating the Mapp act. The charge was narrowed down to R. W. Dickens and he was fined \$101 and costs and given a thirty days jail term, which was suspended. He was also assessed \$51 and costs for exceeding the speed limit and Mrs. Doris Dickens was assessed \$51 and costs for carrying a concealed weapon. The escapade took place on the Mountain Hill road in which direction the party is said to have lived. Officer Cook while patrolling his beat early this morning took special notice of a car containing three men and a woman as it passed him. He said

the new race track at Chantonney, and he motors almost daily to Les Sables D'Olonne to do his own marketing.

"White Elk," the Redskin chief last heard of as member of the North American Indians delegation to the League of Nations, is now a leading attraction of a boulevard cabaret show. He dances every night, and has obtained an automobile.

Music and boxing, represented by Paderewski and Criqui, recently appeared for the popular favor of Parisiennes in a worthy competition for the charitable purpose of obtaining money for France's scientific laboratories. Music came out second best. The recital by the virtuoso of piano-forte drew 110,448 auditors, while 130,095 fight fans turned out to see Criqui's encounter with a relatively unknown Belgian youngster.

It looked suspicious to him and after midnight he was heavily laden. His first thought was that it contained a load of whiskey. Officer Cook called a transfer driver and gave pursuit. He did not overtake them until he was out of town. The fleeing car was travelling at a very fast rate. Cook saw some one throw a jar of what appeared to be whiskey from the car. The officer's car raced with it for about a mile and finally managed to head it off. However, the driver did not stop and finally managed to get in front of the officer's car again. Cook was determined to halt the outfit and he ordered the driver of his machine to pass the car again. He finally made another effort and for some little distance the two cars were running neck and neck at a rapid rate of speed. The officer's car finally forged ahead and forced the other machine to stop. The woman at once displayed the automatic and for a few moments held the officer at bay. She was at close range and at the first opportunity Cook grabbed the weapon and wrenched it from her hand. He then held his revolver on the entire party and placed them under arrest forcing them to drive back to Danville where charges against them were preferred.

QUARREL OVER DEBT LEADS TO KILLING

(By The Associated Press.)

MARSHALL, N. C., Oct. 15.—W. T. Henderson, 60, a country merchant living at Big Pine, in Madison county, was shot and killed Saturday by Ka 'Baker, 46. The latter is being held in jail here without bond on a charge of murder. The shooting is said to have followed a quarrel over \$4.50, which Baker claimed Henderson owed him.

DOG HAS CAESAREAN

LONDON, Oct. 13.—A Caesarean operation was performed on a valuable Aberdeen terrier by a veterinary here, and two of the four puppies were brought into the world alive. During the mother's convalescence, the pups have been adopted by a cat.

Second Trial of R. O. Garrett Will Begin Tomorrow

CUMBERLAND COURTHOUSE, Va., Oct. 15.—R. O. Garrett, county clerk of Cumberland county, will go on trial here tomorrow for the second time on the charge of murder in connection with the killing of Rev. E. E. Pierce. A mistrial was declared at the first trial.

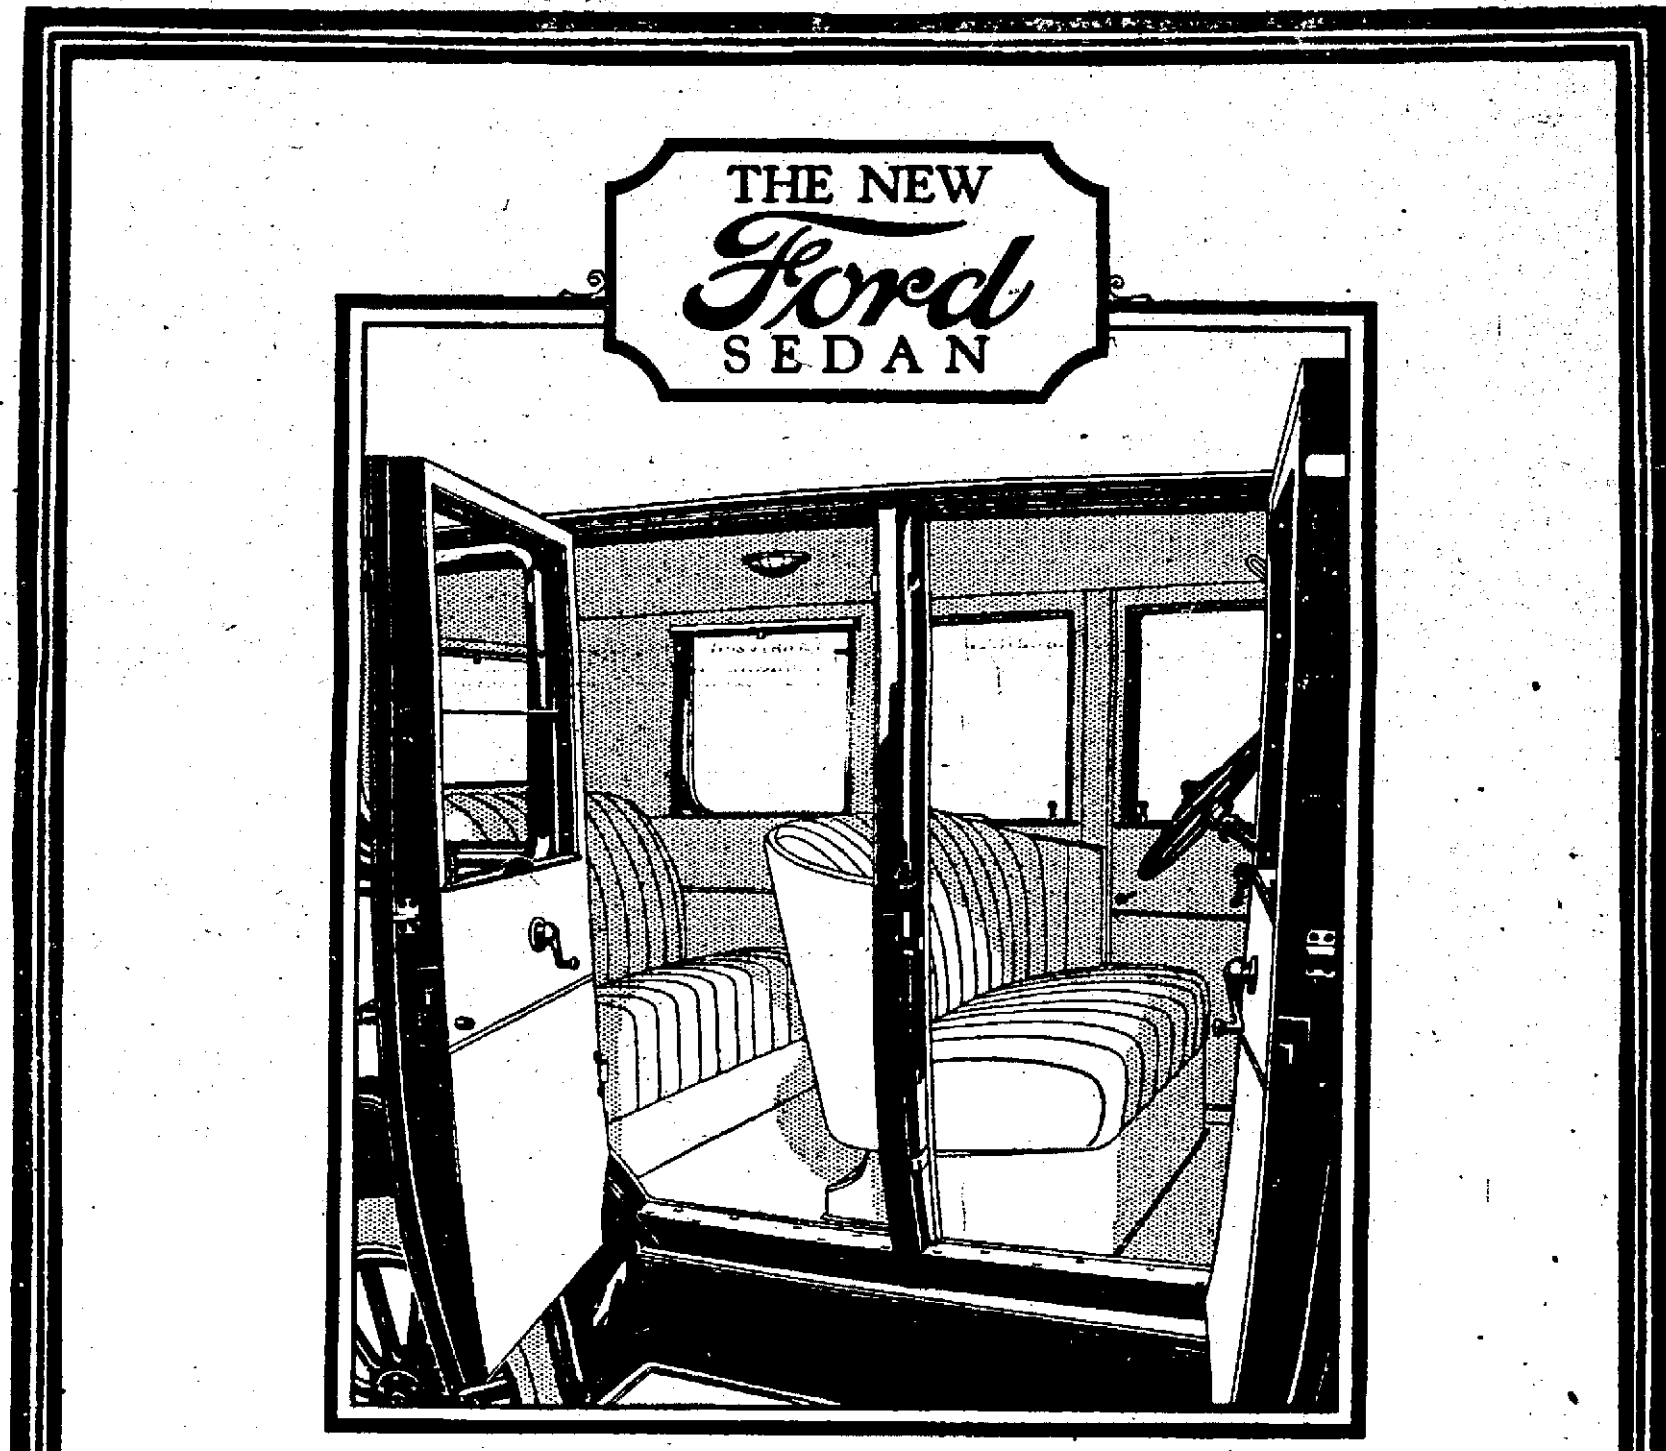

MIDDLEBURY IN TIE WITH HARVARD

CAMBRIDGE, Mass., Oct. 13.—Middlebury College's high aggressive football team held the Harvard team to a six-six tie here this afternoon. Two goals from placement, both kicked by Marshall Klevenov, evened the score in the last period. Then, in the waning minutes, while Coach Fisher huddled, the full power of the crimson offensive follow in a brilliant aerial attack the Middlebury defense sagged and yielded four times for a total loss of sixty yards—and held, the game ending with the ball in the Vermonters' possession.

VEST POCKET ENGINE.

LONDON, Oct. 13.—A motorcycle will enter the Olympia exhibition here with an engine no bigger than an egg cup and capable of running 20 miles an hour. It can run 15 miles on a penny's worth of gasoline.

Dry Cleaning and Dye Works

AMERICAN PEOPLE ARE URGED TO CARRY ON IN FIGHT OF LIQUOR EVIL

(By The Associated Press.)

WASHINGTON, Oct. 13.—Darnest appeals to the American people to "carry on" in the fight for prohibition were made today in opening sessions of the citizenship conference called to promote law observance.

Prominent spokesmen of religious, temperance, civil, political, business women's and other organizations urged a rejuvenation of the movement which led to adoption of the eighteenth amendment. Several hundred delegates from all parts of the country were in attendance and committees were appointed to recommend definite future lines of action to make the prohibition laws enforceable. These will be presented, including plans for intensive local organization of prohibition supporters at the closing session of the conference Monday.

Speakers today promised to use the ballot in the next elections to secure "dry" representation. Several advocated creation of a new organization with headquarters here to gather facts regarding prohibition and centralize future work for law enforcement and observance.

Senator Carter Glass, of Virginia, paid his respects to Representative Hill, of Maryland, who has fruit juries fermenting in his Baltimore residence, and who has so informed prohibition officers and asked for a ruling. The Virginia senator said Mr. Hill was "defying the law" and should be dealt with accordingly.

Glass also urged the transfer of prohibition enforcement from the treasury department to the department of justice. The eighteenth amendment, he said, had the most "deliberate and agonizing prayers of the women." He emphasized it was adopted before the women had the ballot.

Prohibition commissioner Haynes told the delegates that the Coolidge administration is "one hundred per cent" behind the prohibition laws. He denied as "enemy propaganda" charges that whiskey and beer were "flooding" the country.

Leaders of the Anti-Saloon League, W. C. T. U., Y. M. C. A. and many church organizations added their voices to the movement for reinforcement of the fight against liquor. Miss Anna Gordon, president of the National and International W. C. T. U., declared that it was hoped to make "prohibition cover the earth."

Rabbi Stephen S. Wise, of New

York, at a mass meeting tonight, declared that the prohibition amendment was in "reconstitution to stay" and urged a national movement to make it more completely effective.

Solicitor General Beck came in for a recent speech, the speaker said, pleaded for law enforcement but at the same time by "inveading" protested against prohibition as an interference with personal habits.

Dr. Edmund C. Harrington, General secretary of the Anti-Saloon League, declared the present exigency required the churches "to finish the job" and solve the "liquor problem."

Wayne B. Wheeler, general counsel for the league, urged work at the polls to elect "dry" officials.

Representing the fact finding committee of the conference, the Rev. F. Ernest Johnson, of New York, presented statistics showing that recent years register an apparent increase in liquor violations. Smuggling is not as great as represented in press reports and popularity, he believed, is declining.

"The increased drinking seems to be more marked among the young and unmarried people," said Dr. Johnson, adding there had been a "constant and significant increase" in arrests for drunkenness and deaths from alcoholism since 1920.

Beer and Pretzels Keep Him Popular

BERLIN, Oct. 13.—Beer and pretzels have kept Max Egon, prince of Furstentum, popular in the Furstentum district of Baden since the revolution upset the old aristocracy. The prince owns a brewery and a pretzel bakery, which he has operated personally, and he has not allowed the prices to soar beyond the purses of the common people.

The prince bears the reputation of making the best beer in Baden. He is a friend of former Emperor William and frequently visits him at Doorn Castle in Holland. His ancestral castle stands beside the great spring which is the source of the Danube river, which winds its way to the Black Sea after 2,000 miles of wandering.

The prince has been credited with the change in the social scheme in Furstentum with good grace. Frequently he throws open his castle grounds to the public and visits his humble neighbors in his own car and helps them solve the financial problems brought about by the collapse of the mark.

Michael Bohnen, a German baritone who sang at the Metropolitan Opera House in New York last season, and who will be heard there again this year, is about to appear at the Charlottenburg Opera, Berlin, in a new opera especially written for him by an Austrian composer, Emil Nikolaus Reznick.

The opera, "Holofernes," is based on the Old Testament apocryphal Book of Judith. Bohnen will have the role of Holofernes, a general under the Assyrian King Nebuchadnezzar. Holofernes is sent by the king to subdue Judea and other nations west of his empire. When Holofernes attacks the Jews, Judith, in order to save her native town, Bethulia, which is besieged by the Assyrians, slips into Holofernes' tent under the pretense of betraying the town, and cuts off the general's head while he lies in a drunken sleep. In addition to being an opera singer, Bohnen is well known as an amateur boxer.

German experts have been summoned to testify how much Emmy's hair was worth to her in her operatic career. Deslin is suing the manufacturer of a hair tonic for 10,000 pounds damages which she alleges she suffered because her hair was ruined by the tonic guaranteed to improve the condition of her scalp.

The singer says that practically all her hair fell out after using the tonic, and she alleges that, in consequence of this, her earning capacity as a singer is greatly impaired. Operatic experts who are supporting her claims say beautiful hair is almost as important as a good voice for a successful operatic career. The defendant company declares that Deslin is asking more than the entire value of its factory, patents, stock and good will, and furthermore, it alleges that there have been insinuations that operatic singers generally wear false hair anyway.

BIG GAINS ARE REPORTED FOR THE M. P. CHURCHES

MILLVILLE, N. J., Oct. 13.—The reports of the officials of the Eastern Conference of the Methodist Protestant church, in session here today, showed that the churches of the four districts, South Jersey, Central Jersey, Pennsylvania and metropolitan, had made big gains in membership in the past year and were in better condition than ever before.

Statistics Show Fewer Students Spurn High School

CHICAGO, Oct. 13.—If the boy or girl who formerly "quit school" at the end of the seventh or eighth grade is not actually becoming extinct his ranks are being decimated annually, according to reports covering an average ten year period compiled from the office of public instruction in ten central states.

The percentage of increased high school attendance for the period was taken as the medium for estimate. The average increase figure for the decade was found to be 95.4 per cent, with extremes ranging between 1,000 per cent, the figure reported by Oklahoma, to 40 per cent, that of Iowa.

While the figures do not unqualifiedly represent the increased proportion of grade school students entering high schools—the factor of increasing population, applying largely to the rural districts, is a factor in the former gulf existing between the eighth grade and high school, gradually is being eliminated.

In Oklahoma, according to a statement issued by Luther Russell, state high school inspector, the increase in 11 years from 1910 to 1921 was from 12,000 to 22,000, or 183 per cent. Figures supplied by the department of education of Kentucky set the increase from 11,856 in 1913, to 36,000 in 1922—an advance of 203 per cent, while in South Dakota the total number of high school students in 1912, 19,683, represented a jump of 162 per cent from the 7,509 enrolled in 1912.

Vernon M. Reigel, state director of education for Ohio gave the increase in that state as 120 per cent, an advance from 80,608, the figure for 1912, to 178,705, that for 1922.

Voicing the belief that the showing in his state was particularly good in view of the strong call of the many industries of the state "for boys to get out of school into work," Thomas E. Johnson, superintendent of public instruction of Michigan, reported the increase there at from 49,466 in 1912, to 106,496 in 1922, an increase of 115 per cent.

High school attendance in Kansas has increased 86 per cent during the last ten years, according to J. W. Miller, state superintendent of public instruction, who placed the figure for total attendance in 1913 at 33,032 compared with 72,774 in 1922.

A jump of 70 per cent in high school attendance from 1913 to 1922 was reported by E. J. May, state assistant superintendent of public instruction in Indiana. The exact increase was given as from 59,822 in 1913 to an estimated total of 101,425 in the latter year. Compulsory attendance up to the age of 15 years was given principal credit for the good showing.

The per cent of increase during the last decade for Illinois was set at 42 by Francis G. Blair, state superintendent of public instruction. Total high school enrollment in 1912 was 74,568 and in 1922, 107,057.

"Bringing the high school to the pupil" by means of establishing rural high schools in connection with consolidated schools and merging the eighth grades with the high school by creation of junior high schools is noted by Miss May E. Francis, state superintendent of public instruction of Iowa, as influencing the greater proportional gain in high school attendance in that state during the last decade. Enrollment grew from 22,245 to 37,217, an advance of 67 per cent, she said.

Texas showed no exception. In the five year period since 1918 the increase in high school attendance has been 35 per cent, or a growth from 125,000 to 170,000 in the period, according to S. M. N. Marr, state superintendent of public instruction.

Figures issued by the state department of education of Wisconsin, with offices in Madison, set the increase there at 81 per cent, or a gain of from 40,012 in 1912 to 72,423 in 1922.

FIERY CROATIAN FINDS REFUGE

LONDON, Oct. 13.—Stephen Raditch, the stormy petrel of Yugoslavia, is now in London. The irrepressible Croatian patriot, who has been compared to Patrick Henry, Kossuth, d'Anzuno and de Valera, fled across six European borders unrecognized and found refuge in the British capital. The Belgrade authorities had accused him of high treason for defying the government and comparing the country's young queen, Marie, to Madame de Pompadour for her extravagance.

Raditch was formerly a bookseller in Zagreb, Croatia. He is gifted with great eloquence, and all the independent spirit and fiery temper of the true patriot. He began his bloodless fight for European unity against the Serbs in 1918, after Croatia had become merged with the new kingdom of the Serbs, Croats and Slovenes. Like the sons of Ireland who fought to achieve the independence of their country, Raditch fought for the independence of his countrymen. He was a constant thorn in the side of the Belgrade government, which both feared and respected him. After warning him many times against his radical utterances, the cabinet had him arrested, but soon ordered his release when his supporters threatened a revolution.

Raditch is sometimes described as the Mystery Man of Europe, and he has always been an enigma even to the Serbs, who variously call him a Christian, a scoundrel and a lunatic. But none of these epithets is regarded by outsiders as just, for the Croatian leader had been a patriot since a little nation. He is small in stature and unimpressive in appearance, but possesses striking intellectual talents, much charm of manner, and many ideas which tumble over each other in his haste to find expression.

DE ROTHSCHILD WOMAN GUILTY

(By The Associated Press.)
BALTIMORE, Oct. 13.—Mrs. Marat A. De Rothschild was convicted yesterday in the United States court of using the mails to defraud. A scheme to furnish guaranteed tips on horse races was the basis of the charges. James Davenport, former jockey, who was indicted with her, pleaded guilty. Judge Soper reserved sentence in each case.

The mystery surrounding the disappearance of Mrs. Rothschild's husband, who was indicted, was not cleared during the trial. Mrs. Rothschild said her husband was reported drowned while bathing at Atlantic City last July. Rothschild failed to appear to plead to the indictment after his reported drowning and his body was forfeited.

Control of Sex Is Latest Aim

LIVERPOOL, Eng., Oct. 12.—Dr. F. A. E. Crew, who is head of the department of zoological research at Edinburgh University, explained to the British Association how near science has gone to solving the riddle of sex.

Dr. Crew is one of the leaders among modern experimenters in biology, and the value of his work is recognized and approved by scientists of every school. He described the remarkable case of a domestic hen that at one period of its life was the mother of chicks, and at a later phase the actual father of a perfectly good and sound brood.

This complete sex reversal in the hen was caused by a condition of disease, but Dr. Crew is at present experimenting in artificially changing the sex of chickens and also animals.

He has produced successful results, but the complete details of his experiments are not yet published. He can support them with full scientific data and argument.

"The reason for the experiments and research is this," said Dr. Crew. "We are endeavoring to understand the particular mechanism which creates different sexes in life. When we comprehend the mechanism thoroughly then we shall be in a position to control it."

"I think it is theoretically possible that we should be able to control it, and so regulate it that a preponderance of either one sex or the other shall be born."

Dr. Crew does not consider that it will ever be possible to reverse sex in human life.

"In fowls," he said, "the sex gland is situated in the abdominal cavity. In human beings it is situated in separate parts of the body, and that will be, I think, the insuperable difficulty."

Dr. Crew's mother hen which became a father is the first living thing in which the complete reversal of sex has been scientifically observed, and the reasons for it tabulated in the laboratory.

The hen was a bawling domestic fowl in the research station at Edinburgh. It was a heavy layer of eggs as a hen, and hatched and reared chicks.

Its female characteristics ended when it was three and a half years old. Though its plumage remained the feathers of a hen, it acquired the head comb of a cock and it developed the habit of a partial crow.

"At this stage," said Dr. Crew, "she was not attracted by the other hens, nor did she fight with cockerels; rather she sought solitude."

"Later the legs of the hen assumed the reddish tinge in the legs of a cock and her plumage changed."

"Her crow became vaunting and challenging. She sought combat and was disposed to the society of hens."

"Finally she was mated with a virgin hen. The eggs of this hen were found to be fertile. They were incubated, and chickens were born from them and reared."

"The chickens thus reared were of both sexes, and they in turn reproduced."

The hen-cock died, and a post-mortem examination was conducted into her abnormalities.

It was found that she had severe abnormal tuberculosis, which had slowly but completely destroyed the female ovaries. This destruction permitted the counter growth of the male sex cords until "she" became "he" in bodily attributes and inclinations.

It is easy to appreciate the importance of this discovery and the line which it gave to experiment.

If such destruction of sex cells are

HOW TO STOP SORE, BLEEDING RECEDING GUMS

Dentists say that a great majority of people either have pyorrhea (Riggs Disease) or pyorrhoeal tendencies. The beginning is sore, receding or bleeding gums, sensitive or loose teeth, pus pockets, and bad odors. Pyorrhea not only affects the gums and teeth, but also your general health, as the pus, which is very poisonous, is absorbed into the system, causing serious stomach troubles, the results of which are sometimes fatal.

You can now treat pyorrhea at home and get relief with formula known as Creosolene, the new discovery that, through penetration, carries a powerful but harmless germicidal, of which creosote (the greatest germ-destroying, tissue-preserving agency known and used as dental for years) is the base, right to the roots of the teeth, killing the pyorrhea germs, making the gums healthy, tightening up and preserving the teeth, healing pus pockets, relieving pain and destroying odors caused by decayed or abscessed teeth.

Creosolene is pleasant to use, and should be used by every one who wears a plate or keeps the gums firm and healthy and free from pain. \$1.00 at your druggist and your money back if it fails. Creosolene Co., Atlanta, Ga.—adv.

BEWARE THE COUGH OR COLD THAT HANGS ON

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creosolene, an emulsified creosote that is pleasant to take. Creosolene is a new medical discovery with two fold action. It soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosolene is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creosolene contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creosolene is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchitis, asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds or the flu. Money refunded if any cough or cold, no matter how long standing, is not relieved after taking according to directions. Ask your druggist, Creosolene Co., Atlanta, Ga.—adv.

NOW SHE ENJOYS A WHOLE NIGHT OF REST!

Mrs. William Seigfried, of Bethlehem, Pa., Recommends Paw Paw Tonic for Nervousness

MRS. WILLIAM SEIGFRIED
Bethlehem, Pa.
Who Praises Paw Paw Tonic

"I must say that Paw Paw Tonic has proved itself to be what it is advertised," says Mrs. William Seigfried, 19 E. Third Street, Bethlehem, in a personal letter to the makers of Paw Paw Tonic.

"I recommend Paw Paw Tonic to anyone suffering from rheumatism, neuritis or any nervous disease. I can now enjoy a full night's rest since I have taken it. I have taken three bottles and I am glad that I have found it, as it has helped me wonderfully."

Mrs. Seigfried is only one of thousands of people who have written letters of appreciation of the benefits of Munyon's Paw Paw Tonic. It is the universal remedy for run-down condition, nervousness, depression, stomach trouble, heartburn, despondency and other internal ills. Try it. It costs only \$1 a bottle at any first-class drug store. Ask for Munyon's Paw Paw Tonic and accept no substitute.

FRANK McFALL

The South Today is the Most Prosperous Part of United States

The attention of the country is being directed to Southern development as never before. This year's crops in the South will exceed in value by \$1,000,000,000 or over the value of last year.

Tens of millions are being spent in building cotton mills in the South while not a single cotton mill is under construction in New England.

The opportunities before Southern business men for the expansion of their business is limitless. It is a duty they owe themselves and their community to keep in touch with what the Southern States are accomplishing in industrial progress, and in material development of every description.

The MANUFACTURERS RECORD has studied the South and knows the South as no other publication has studied it or knows it.

Three of our Representatives (Edgar H. Peed, New England Representative; Howard L. Clark, Assistant to Editor; and John C. Cady, Circulation Mgr.) are making a special Southern automobile tour and will be in Danville today and tomorrow.

They will call upon the business and professional men of Danville and vicinity. Their message, we believe, is important and we beg you for their courteous consideration.

Danville High Loses To Roanoke

In the face of heavy penalties because of being off side, Roanoke High School defeated Danville Saturday afternoon. Although outwitted by the visiting team, Roanoke High school, under the leadership of Albert Barnes, scored practically all the points. Fullback Looney, of the local team, was the first to get away with a long run making thirty yards around end. The ball was then given to Bishop, who made another long gain. Looney was given the ball again and he dashed through the left side of the Danville line for the first counter. Barnes failed to kick goal.

The Roanoke boys got off again and Looney trotted around the end for 40 yards. Barnes took the ball and went over for the second touchdown and "shortie" Wood kicked goal. The Danville team, then rallied and the ball stayed in the middle of the field for about three minutes when the fighting Roanoke line held the visitors for downs. The ball went over and Bishop started the second quarter with a thirty-yard dash through the Danville line. Wood took it another 15 yards and Looney dashed through the center of the visiting team for the third touch down. Woods failed to kick goal.

Wilson, fullback of the Danville team showed a spurt of form, receiving a long pass for about thirty-five yards. The visitors were held for three downs and then they kicked off to Barnes who ran about eighty yards for another touch down. Wood, on the try for a point, caught a pass from Barnes and made the score 26 to 0 at the end of the first half. After receiving one penalty after another Roanoke High finally got started and Bishop got away on a long run for a touch down. No goal. Looney caught a long pass from Barnes after the kickoff and ran about fifty yards for another counter. No goal.

Rankin, substituting for Woods, made an end run for another touchdown. Looney got a pass from Barnes over the line, which counted for an additional point. In the middle of the third quarter Barnes got away around left end and ran forty yards for his third touch down.

Coach Duncan towards the last sent in his entire second team which held the big Danville boys in the middle of the field with Angell and Hodges featuring.

TENNESSEE IS WINNER OVER KY

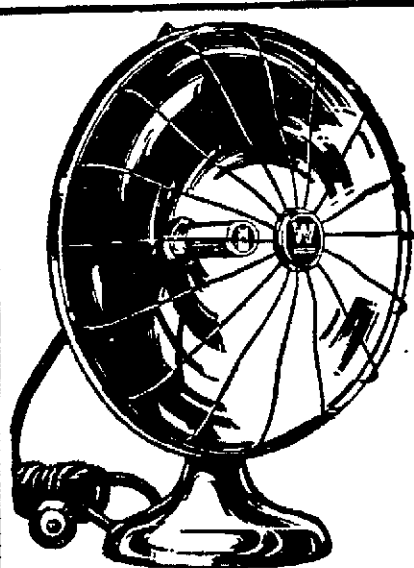

(By The Associated Press.) KNOXVILLE, Oct. 13.—The University of Tennessee defeated the University of Kentucky 13 to 6 here today in a slow game marked by aerial work on both sides. A line plunge by Bone resulted in Tennessee's first score, their attempt at goal failing. Georgetown came back strong in a rapid succession of overhead passes in the third period netting the Kentuckians their own score. The Tennesseans' second touchdown followed a pass from Bone to Holt, and a driving attack on Georgetown.

Tennessee's offensive attack showed great improvement over the game last week with Maryville. YALE DEFEATED GEORGIA TEAM (By The Associated Press.) NEW HAVEN, Oct. 13.—Yale eleven smothered Georgia today by a score of 40 to 0. Georgia outplayed Yale in the second period, making two touchdowns but failing to score after putting the ball on Yale's 15 yard line.

W. & L. Able To Get Only Tie With Ky.

(By The Associated Press.) LEXINGTON, Ky., Oct. 13.—The University of Kentucky through a strong march of 61 yards down the field for a touchdown in the final quarter, managed to tie the Washington and Lee here today, six to six in one of the most exciting games ever staged on Stoll field. Both teams missed the try for point after touchdowns.

Washington and Lee opened up in the first quarter with an aerial attack that had Kentucky bewildered. Three long passes putting the ball inside the ten yard line from where it was bucked across, Frew making the touchdown. Washington and Lee outplayed Kentucky most of the game.

When the final period was half gone, Kentucky received the ball on their own thirty-nine yard line and through two fake plays, with Kirwan carrying the ball netting 26 and 11 yards respectively and two ten yard forward passes, coupled with several line smashes, Sanders plunged over for the tying count. The work of Washington and Lee's ends featured the game.

EHMKE MAKES FUNNY RECORD

BOSTON, Oct. 13.—Baseball is a mighty uncertain pastime. If you have the least doubt about it, glance over the recent pitching performances of Howard Ehmke of the Boston Red Sox.

In a game against the Philadelphia Athletics recently, Ehmke pitched a no-hit game. His next start was against the hard-hitting New York Yankees. Whitley Witt, the first man to face him, bounded to Howard Shanks at third. Witt should have been an easy out but Shanks played the ball badly and the generous scorers recorded it as a hit. During the

rest of the game not a Yank player made anything that looked like a base hit. Umpires Connolly and Dinneen, who worked the game, said if ever a pitcher deserved a no-hit game, Ehmke did in the New York contest. However, the game went into the records as a one-hit affair. How different the next time Ehmke faced the Yankees. Instead of getting one scratch hit in nine innings, 11 of the 14 hits coming in the sixth inning, when New York made 11 runs. Peculiarly enough, Ehmke seemed to have plenty of stuff, as shown by his six strikeouts in six innings. When he wasn't whiffing them, the Yanks were denting the fences.

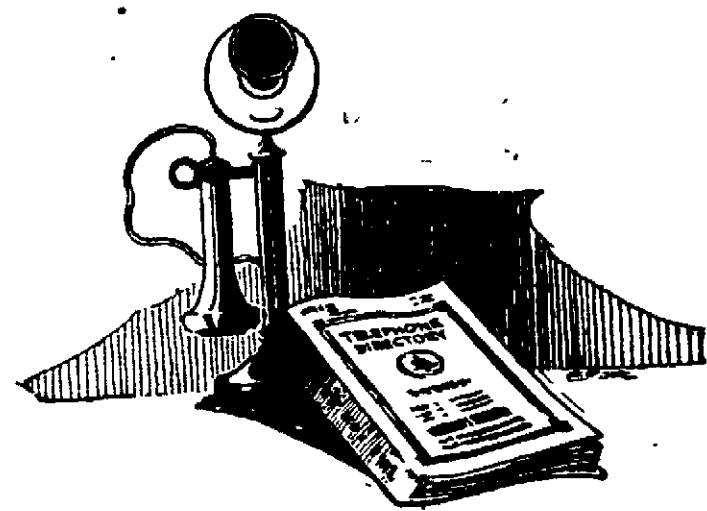

INDIANS SWEEP TO VICTORY OVER TAR HEEL TEAM

(By The Associated Press.) WILLIAMSBURG, Va., Oct. 13.—Using but four plays, line and off tackle drives Coach Tasker's William and Mary Indians swamped the Guilford College eleven here today by a score of 74 to 0. The William and Mary goal was not threatened during the game, the ball remaining throughout in the Tar Heel's territory.

The Indians showed great improvement over their form of last week when the strong Syracuse team smothered them under a large score. The line, working well together held consistently and the back field showed a punch and driving power no displayed before this season.

Poster's Passes Help Virginia

(By The Associated Press.)
CHARLOTTESVILLE, Va., Oct. 13.—Henry Foster's accurate passing was a great factor in Virginia's defeat of St. Johns of Annapolis here today by a 32 to 7 score, eleven of his tosses being completed while three failed. Three of the five touchdowns registered by the local gridiron warriors came when Foster's passes were received across the visitors' goal line.

The Marylanders were somewhat successful in their overhead game, their loan touchdown resulting when Jarvis ran 20 yards after receiving a long pass.

Aggressive in offensive and defensive play throughout, Virginia allowed her opponent but few downs and showed a spirited attack which brought consistent gains. The game ended with the piskin in Virginia's hands on St. Johns one foot line.

ATTENDANCE FIGURES FOR SATURDAY'S GAME

(By The Associated Press.)
POLO GROUNDS, N. Y., Oct. 13.—The official figure for attendance at today's game follows:
Attendance 46,302.
Receipts \$181,622.
Advisory council \$27,243.30.
Players pool \$92,627.22.
Each club's share \$30,875.74.

Parents of Joe Dugan Saw His Great Performance

(By The Associated Press.)
NEW YORK, Oct. 15.—A fine old man with short trimmed white mustache, soft hat and grey suit sat behind the wire screen at Yankee Stadium yesterday. Before the game started the old fellow had everybody around him laughing at his funny remarks. In the first inning, when Joe Dugan went to bat and crashed out a single, the old man let out a wild yell and then told another funny joke. In the second inning when Joe hit his home run, scoring two men ahead of him, the old man jumped out of his seat.

"Oh you Joey Boy," what a fine blow that was? Oh you Joe, and then turning to the crowd he shouted glee, fully: "That's my boy, that's old man Dugan's son, all right. That's my boy."

"Sit down Pat," said a fine looking old lady in the next seat, pulling his coat tail, "sit down now." But there was a tear of joy in her eye as she saw her son Joe cross the plate and wave his cap at her. Patrick Dugan sat down all right after that home run but he did not keep still. He shouted until he was hoarse and when each of Joe's other two hits were made, he seized the opportunity to inform the crowd that that was "my boy."

Yale Rolls Over Georgia Eleven

(By The Associated Press.)
NEW HAVEN, Conn., Oct. 13.—Coach Tad Jones' Yale eleven rolled up a 40 to 0 score in defeating the University of Georgia team here today in the Yale bowl. The Elis outplayed the southerners in all periods except the second when Georgia showed strength, making four of its nine first downs. The bulldog backs rushed the Georgia team off its feet in the first period with a series of line plays and two forward passes, scoring three touchdowns and a drop kick. A Georgia drop kick failed from the 15 yard line in the second quarter after Captain Bennett had blocked a Yale punt which Butler recovered.

Yale completed five out of six passes while Georgia made only two of its six attempts good. Stevens of Yale led the scoring with 21 points to his credit, including two touchdowns, two drop kicks and three points after touchdowns. Pond at half back also starred for the Elis making two touchdowns which included a score on the fourth down from the four yard line in the third period. Mistand, Yale's left tackle, stood out on the defense in several cases throwing the southerners for losses.

Captain Bennett, of Georgia, was tower of strength on the defense at right tackle while Wiehrs, who went in at quarter back in the second quarter, in place of Moore, led in the Georgia rushes until an injury slowed him up.

Georgia Tech Meets Match In Florida Team

(By The Associated Press.)
ATLANTA, Ga., Oct. 13.—Florida and Georgia Tech today fought four quarters to a tie of 7 to 7 in their football match here today. Florida outplayed the Georgians in the first part of the game and Tech did not score until near the end of the final period.

Footbal In Old Dominion Runs In Even Course

(By The Associated Press.)
RICHMOND, Va., Oct. 15.—The final games before the opening of the Virginia big four season next week, showed football in the Old Dominion running in even course, probably the only exception was Virginia Polytechnic which unceremoniously let strength against the Third Army Corps Academy in Baltimore and lacked the blast of the final whistle of turning the 27-17 loss into a victory.

Virginia and Virginia Military Institute, which opens the big four program next Saturday at Charlottesville, came through their season games in fine style although in both cases the defensive play was a bit loose. Virginia beat St. John's, 32 to 7 and the Cadets won from Roanoke, 27 to 6.

The Washington and Lee team playing the University of Kentucky at Lexington, Kentucky, got the jump on the Wildcats and scored a touchdown but could not hold the Kentuckians off long enough to prevent their tying the score and the final was 7 to 7.

Richmond's defense held well against a smashing attack by the heavy Maryland team but not well enough to prevent a 27 to 0 score. William and Mary trounced Guilford, 74 to 0 in Williamsburg in preparation for the Indians game next Saturday.

The 7 to 0 victory of North Carolina State over the University of South Carolina lends interest to the meeting between Virginia and the North Carolina eleven on Thursday.

King College was scored on for the first time when Elen got six points but the mountain team again ran up a half hundred points ending with 55. Lynchburg went down, 25 to 0 before Wake Forest; Randolph Macon beat Catholic to 27 to 0 and Emory and Henry lost 33 to 0 to Kentucky Wesleyan.

Bancroft struck out. Groh up. Ball one. Groh went out to Pipp unassisted. No runs, no hits, no errors.

NINTH INNING

GIANTS—Frisch up. Ball one. Strike one. Dugan threw out Frisch. Young up. Strike one. Young flied out to Witt. Meusel up. Ward threw out Meusel. No runs, no hits, no errors.

FOOTBALL IN OLD DOMINION RUNS IN EVEN COURSE

(By The Associated Press.)
RICHMOND, Va., Oct. 15.—The final games before the opening of the Virginia big four season next week, showed football in the Old Dominion running in even course, probably the only exception was Virginia Polytechnic which unceremoniously let strength against the Third Army Corps Academy in Baltimore and lacked the blast of the final whistle of turning the 27-17 loss into a victory.

Yale Rolls Over Georgia Eleven

(By The Associated Press.)
NEW HAVEN, Conn., Oct. 13.—Coach Tad Jones' Yale eleven rolled up a 40 to 0 score in defeating the University of Georgia team here today in the Yale bowl. The Elis outplayed the southerners in all periods except the second when Georgia showed strength, making four of its nine first downs. The bulldog backs rushed the Georgia team off its feet in the first period with a series of line plays and two forward passes, scoring three touchdowns and a drop kick. A Georgia drop kick failed from the 15 yard line in the second quarter after Captain Bennett had blocked a Yale punt which Butler recovered.

Georgia Tech Meets Match In Florida Team

(By The Associated Press.)
ATLANTA, Ga., Oct. 13.—Florida and Georgia Tech today fought four quarters to a tie of 7 to 7 in their football match here today. Florida outplayed the Georgians in the first part of the game and Tech did not score until near the end of the final period.

Crisis Exists In Free State Army Report Asserts

(By The Associated Press.) LONDON, Oct. 15.—An anonymous Irish correspondent of the Morning Post alleges that a dangerous crisis exists in the Free State army. The statement says for months past there has been an absolute cleavage from the top to the bottom of the army but that now some of the principal officers are to be or have been court-martialed, having come out in open insubordination, it is not rebellion against the government.

The correspondent asserts that Minister of Home Affairs O'Higgins insists upon extreme measures and the removal of the officers, but that they cannot be punished for fear of consequences to the government. Meantime the troops will not act to enforce the collection of 75 per cent. arrears in rentals which the government has ordered collected within the next three weeks under the land act of 1923.

Cotton Market Trading Excited

(By The Associated Press.) NEW YORK, Oct. 15.—October contracts today advanced 71 points to 29.90 in excited trading in the cotton market. This is within 40 points of the high record of the season. Later months also were up about 67 points. Heavy rains in Texas and Oklahoma were attributed as the reason for the rise.

MORNING GRAIN LETTER

Thomson & McKinnon. CHICAGO, Oct. 15.—Would not be surprised to see a moderate rally in wheat today. There is nothing particularly new in the situation but technical position seems to warrant some rally. Receipts of new corn encouraging considerable bearishness among the local trade. Some irregularity is probable here, although we do not look for any important break at this time.

NEW ORLEANS COTTON

(By The Associated Press.) NEW ORLEANS, Oct. 15.—Bad weather in the western belt put the price of cotton strongly higher today and to within hailing distance of the highest levels of the season. On the first upward turn December went to 28.85. At this price the trading conditions were 58 to 75 points over the close of last week and these levels were well maintained during the first half hour of the day. Exceedingly heavy rains in Oklahoma and Texas were the main buying argument.

COTTON FUTURES OPENED FIRM:

NEW YORK STOCKS.

(By The Associated Press.) NEW YORK, Oct. 15.—Opening prices in today's stock market were decidedly irregular with no definite trend apparent in the first few minutes of trading. Royal Dutch dropped one point but a number of other oils improved fractionally. A fair inquiry also was noted for some of the rails but steels were heavy.

STORY OF BATTLE AT SEA LIKE SCENARIO FOR FILM

NEW YORK, Oct. 15.—Lashed to nine bolts in the deck of the dismantled barkentine John S. Emery, of Boston, Captain E. M. Davis and his crew of nine drifted for three days through pounding seas before picked up by the liner, Samland, which made port today.

SEVEN STUDENTS ARRESTED

(By Chicago Tribune Service.) RICHMOND, Oct. 12.—Seven students, alleged conspirators in the overthrow of the government, though assassinations of cabinet members were arrested yesterday. The minister of justice last night told reporters that the government has discovered that the plot extended throughout the country and hundreds of additional arrests are expected immediately.

Ticker Talk

(Thomson and McKinnon)

NEW YORK, Oct. 15.—Issue of 47,000,000 Federal Bank Bank 4 3-4 per cent. bonds offered at par compared with recent offerings on 4 1-2 per cent. basis.

General Electric new orders in quarter ended September 30 were \$95,483,849 against \$58,914,020 in same quarter 1922.

Figures of American Gas Association show customers of gas companies in United States increased 400,000 in last twelve months. Expansion program to cost \$450,000,000 underway.

Western Union Telegraph Company nine months ended September 30, net after deductions \$10,000,504 or \$10.02 a share against \$9,473,844 or \$9.49 a share in same period last year.

Average price twenty industrials \$7.13, off .03, twenty rails 79.19, off .04.

Italy's excess of imports over exports in first seven months current fiscal year 4,387,000,000 lire against 4,081,000,000 same period last year.

Secretary Hoover proposes Middle Atlantic and New England states super power system to cost \$1,250,000,000 which would effect estimated saving of \$500,000,000 and fifty million tons of coal annually.

Railroads October 1 had 54,159 serviceable locomotives, increase of \$92 since September 15. Locomotives in need of repairs 9,824 or 15.3 per cent. of total on lines, smallest on record.

Statement by Premier Baldwin that "these are days risks must be taken" may foreshadow important change in British foreign policy.

Supreme court meets at noon.

Bituminous coal output week ended October 6 was 19,782,000.

General Motors is forming Danish company to establish assembling plant for Chevrolet cars in Central Europe.

British gold exports last week were 765,927 pounds of which 354,595 went to United States.

British pig iron production in September 556,500 tons against 599,800 in August. Steel ingots and castings 695,100 tons against 567,500 in August.

Lloyd George Will Try To See Chicago Incognito

CHICAGO, Oct. 15.—David Lloyd George, former British premier, will see Chicago Incognito—if he can.

The little Welshman's plan was revealed yesterday when Sir Alfred Cope, his personal representative, was asked to explain the program for next Wednesday, which is blank up to 6 p. m.

"It is his own idea," said Sir Alfred. "He can not enjoy the people and the streets, the buildings and the parks and all the other interesting features of Chicago, if his approach is heralded and he is compelled to acknowledge the salutes of crowds everywhere."

Mr. Lloyd George will arrive in Chicago at noon tomorrow and will leave Thursday to visit Lincoln's tomb at Springfield, Illinois, where he will speak.

MORNING STOCK LETTER.

(Courtesy Thomson & McKinnon)

NEW YORK, Oct. 15.—I supposed everyone identified with the stock market has been on the lookout for some indication of what is to come. "Important buying." There is no sign of it visible but the question is in order—what has become of all the stocks liquidated and all the stocks sold for short account? Take steel for an example; the records shows brokers' holdings are less. Where did they go? Those who are short should lose no time in interesting themselves in this. It is important to them.

It is very popular these days to be a bear and to be a short. Those who are short should lose no time in interesting themselves in this. It is important to them.

MORNING COTTON LETTER

Thomson & McKinnon

NEW YORK, Oct. 15.—Wall street brought freely Saturday on predictions of bad weather in Texas and Oklahoma.

Private reports this morning say that between six and ten inches of rain fell over Oklahoma.

Sentiment is bullish, but think the advance discounts a great many bullish features.

British Press

Joins In Protest

(By The Associated Press.)

LONDON, Oct. 15.—Four of the London morning newspapers join in the protest against the removal from England of the remains of General Oglethorpe, founded of the State of Georgia.

One editorial writer professes to be at a loss to discover why Oglethorpe University "should require the British people to connive at snatching a student's holiday." Another refers to "Americans who have a craze for bones as 'well-meaning ghosts.'" A third says that "these body-snatchers will have to stay their sacrilegious hands."

About Galeski Prices

All glasses we furnish are priced according to a scale, and everyone pays exactly the same price for the same article.

But, Galeski Glasses are never expensive. They are always worth much more to the wearer than their cost, which may be considered an investment in comfort rather than an expenditure.

Ask your Oculist.

THE MOST SURPRISING

Homemade Bank story we have seen appeared in a recent paper, a Swiss farmer withdrew his savings from a real bank and hid them in the barrel of his shotgun. A few days later, a fool-hardy rabbit stopped near his back door. He grabbed his gun and fired, the rabbit costing him just 2,000 francs, about \$365. If his money had been marks, the rabbit would have been worth it. Moral: In a real bank, a good one like the COMMERCIAL, your money is safe from fire, theft, or absent-mindedness, and earns four per cent.

COMMERCIAL BANK

"The Bank With The Chime Clock."
